DEDICATION

The recurring image that graces the cover of this year's Hamiltonian and its dividers is that of the bronze map situated at the center of campus. The map sits at the heart of Martin's Way, connecting the North and South sides of campus and commemorating the union of Hamilton and Kirkland College.

This year's yearbook staff chose the map as a way of embracing the beauty in the diversity of Hamilton College. We come from all walks of life yet chose to spend four years living in residence halls all over this one campus, and there's something to be said about that.

We're all familiar with the bit of Hamilton lore, the urban legend of sorts that any student who walks across the map would not be able to graduate. Yet here we are, at the end of another year, presenting another senior class of Hamilton College.

Seniors: Whether or not you've taken the risk of traversing the bronze map, we would like to congratulate you all on a successful career at Hamilton. When you come back to visit for Reunions in the summer, Alumni Weekends in the fall, or Class and Charter Days in the spring, the map will still be there. Come and walk across it as much as you want!

Congratulations!

-- The Yearbook Staff

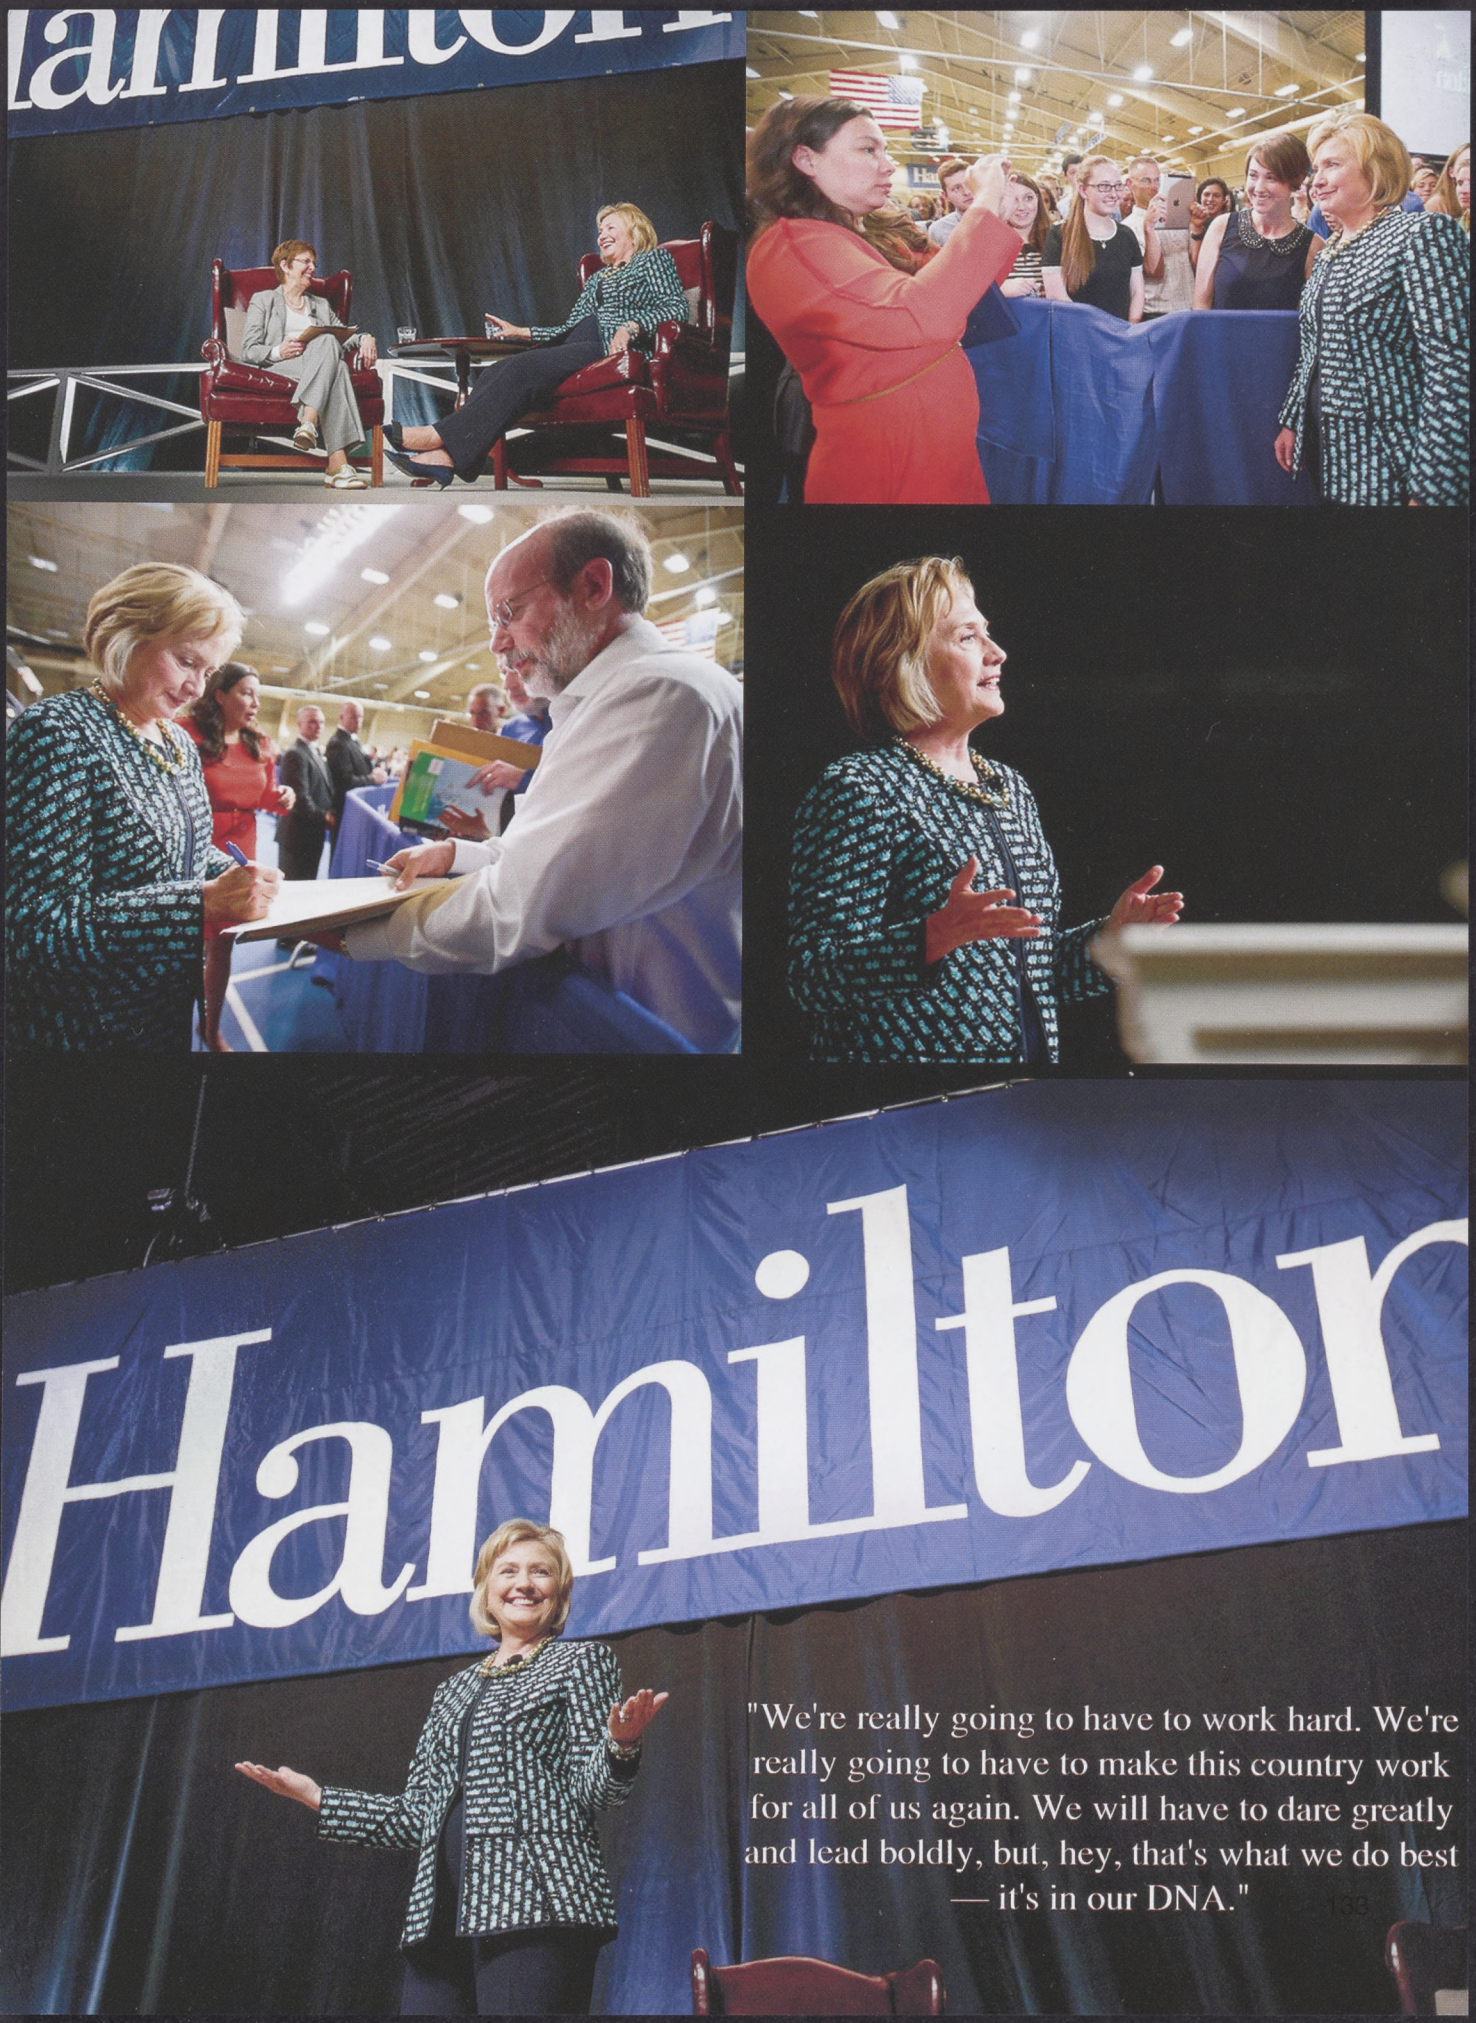
GREAT NAMES

Hillary Rodham Clinton

"Talent is not universally distributed, but opportunity is not ... How do you best prepare to be better, smarter, work more collaboratively? Education - that is the key. It has been and I believe it will remain so."



"We're really going to have to work hard. We're really going to have to make this country work for all of us again. We will have to dare greatly and lead boldly, but, hey, that's what we do best — it's in our DNA."
